I have opened the links and add some brief comments.

[Council of Europe Survey on the level of proficiency of Inmigrants in European languages](#)

If you want to see all the questions before answering you have to type something like "I want to see all the questions before answering" on each question.

Note that the survey and the portals are only in English and French, the official languages of the Council of Europe.

[Self-Assessment Grid for Immigrants to check their knowledge of the language in their new country](#)

This link contains access to the table in 32 European languages with five levels relating to:

Listening;
Reading;
Spoken interaction;
Spoken production;
Writing

[The Self-Assessment table for English](#)

I consider that these self-assessment levels are interesting both for Migrants as for the authorities that facilitate the granting of full citizenship rights for Immigrants.

Kindly forward this information to all organizations working with Migrants both in the countries where they want to integrate and also in the countries from which they want to emigrate.

Kindly answer the survey directly or via EN-RE by 20th October 2018 and forward a copy to EN-RE, if possible.
